Meet our esteemed panelists...

Dr. Hilde Remøy

Associate Professor at Delft University of Technology, specializing in sustainable adaptive reuse of real estate and heritage. Focuses on resilience, lifespan, and continued reuse of real estate. Leads European research projects and collaborations with Dutch government agencies and municipalities.

Dr. Tris Kee

Associate Professor at Hong Kong Polytechnic University, with a background in architecture and academia. Engages in teaching and research, collaborating on projects with industry professionals and government departments. Holds a Ph.D. from the University of Hong Kong and has worked internationally.

Dr. Jess Ferm

Associate Professor in Planning and Urban Economies at the Bartlett School of Planning, UCL. Specializes in planning for economic development with expertise in planning regulations and governance questions surrounding reuse of industrial and commercial buildings for residential use. Contributes to the field through teaching, publications, and industry collaboration.

Dr. Connie Susilawati

Associate Professor at Queensland University of Technology, specializing in property economics and sustainable human settlement. Leads research projects in Indonesia and Australia, focusing on disaster resilience and optimization of public building assets. Published articles on affordable and sustainable housing.

Let's discuss together exciting topics such as...

Sustainable Revitalization: Adaptive
Reuse of Industrial Building

Adaptive Reuse as a Circular Approach

Repurposing Public Building Asset:
Challenges and Opportunities

Governing and Planning for Adaptive
Re-use of Buildings: Opportunities and
Pitfalls

The event is organised by the 2024 IRES GWIRE Committee...

Co-chairs: Dr. Elaine Worzala and
Dr. Basirat Oyalowo

Members: Ms. Bernadette Gitari
(AfRES) | Dr. Ramya Aroul (ARES) |
Dr. Ervi Liusman (AsRES) |
Dr. Danielle Sanderson (ERES) |
Dr. Claudia Affonso (LARES) |
Dr. Connie Susilawati (PRRES)
