The International Real Estate Society (IRES) is a federation of regional real estate societies that encourages global cooperation on research and education. The mission of IRES is to: (1) encourage communication, cooperation, and coordination regarding real estate research and education; (2) encourage and assist in establishment of real estate education and research programs; (3) encourage research on international real estate topics; and (4) encourage and facilitate faculty exchanges. The federation consists of the American Real Estate Society, European Real Estate Society, Pacific Rim Real Estate Society, Asian Real Estate Society, African Real Estate Society, and Latin American Real Estate Society. IRES annually presents three prestigious awards. Nominations come from individual members of the regional societies and the recipients are decided by a vote of a committee comprised of one representative from each of the regional organizations and one industry representative.
